EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. Claims 1, 4-8, and 10-20 (renumbered claims 1-17) are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 14 (renumbered claim 11), and 20 (renumbered claim 17), the primary reason for allowance is that the prior art fails to teach or reasonably suggest a plurality of row selection signal lines disposed along a row direction, each being associated with one pixel row, a plurality of reset signal lines disposed along the row direction each being associated with one pixel row, a row shift circuit including a row read scan circuit capable of supplying a read signal to the row selection signal lines sequentially, a reset scan circuit capable of supplying a reset signal to the plurality of reset signal lines sequentially, the row shift circuit having no random access function, and an overall reset controller for supplying an overall reset signal to all of the reset signal lines at one time.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
